Thousands of Americans are in need of vital organs and tissues. For many, the chance to live a full life won't come unless more of us consider organ, eye and tissue donation. Each one of us has the potential to save up to eight lives as an organ donor and touch another fifty as a tissue donor. After services, discuss organ and tissue donation with your family and friends. Let them know that you understand the critical need for organ and tissue donors. Eighteen people die every day for example, waiting for an organ transplant. Remind them that there is no cost for giving the gift of life. All you need to do is say YES.
